

# CRMLS Broker Resources

CRMLS is broker-driven. And we're here to help.

We work to keep our brokers as informed and up-to-speed as possible. Here are a few resources that will help you and your staff assist your agents in their day-to-day business. Need more? Visit [crmls.org/brokers](http://crmls.org/brokers) for a complete list.

## Key Resources

### Brokerage training

Whether you need training for your office managers and admins or you'd like us to host an office-wide class for your agents, we're happy to accommodate. Visit [crmls.org/brokers](http://crmls.org/brokers) for the request form. We also offer brokerage branded training materials.

### Listing syndication management

Manage syndication to popular consumer websites for your office, learn more about where your hard-earned listing data goes, and get dedicated help on how to get control of your listings.

### Branded training and listing presentation collateral

Get flyers, PowerPoints, and more to gain more listings and clients. Collateral can be branded to your brokerage and customized to fit your needs.

### Stats and more on request

We'll help you drill down and learn how your agents are interacting with your MLS. Find out how you can help your agents succeed with call center statistics, compliance numbers, and more.
