

# Realtors Property Resource® (RPR®)

Create reports with MLS and ancillary data from all 50 states.

Comprehensive data, powerful analytics, and client-friendly reports for every NAR constituent. Available at no additional cost to all CRMLS users who are members of the National Association of REALTORS®.

*“Our client was thrilled we got her such a high offer on her home. But, the reason we were able to do that, was because of RPR®.”*

*– James & Penny Brockway, REALTORS®*

## Key Features

### MLS and ancillary data from across the country

Neighborhood, school, quality of life info, and more, all in one place – no more searching multiple platforms to find the home data you need.

### Unique REALTOR Valuation Model (RVM®)

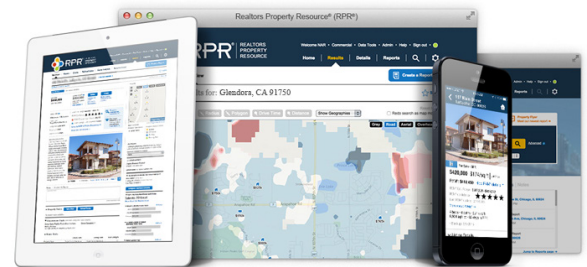

Use this powerful tool to help you price a listing. Unlike other automated valuation models, the RVM is exclusive to REALTORS® and boasts high accuracy and customizability.

### Generate and send branded reports from anywhere

Your exclusive REALTOR® branding is included in all reports. Generate reports in the office or on-the-go with the free RPR Mobile app.

### Brokerage-specific tools and market intelligence

For brokers: access unique tools and market data from the RPR® platform at no additional cost.

Comprehensive access from desktop and mobile app.

Generate reports with the info your clients crave.
