

DISCOVER MLS-TOUCH!

 **MLS-Touch**[®]

The MLS in the Palm of Your Hand

With powerful and easy-to-use search tools, agent-branded apps, automatic Facebook publishing, and advanced integrations with the CoreLogic Matrix™ multiple listing platform, you can keep connected with your MLS and engaged with your clients from anywhere, on any device.

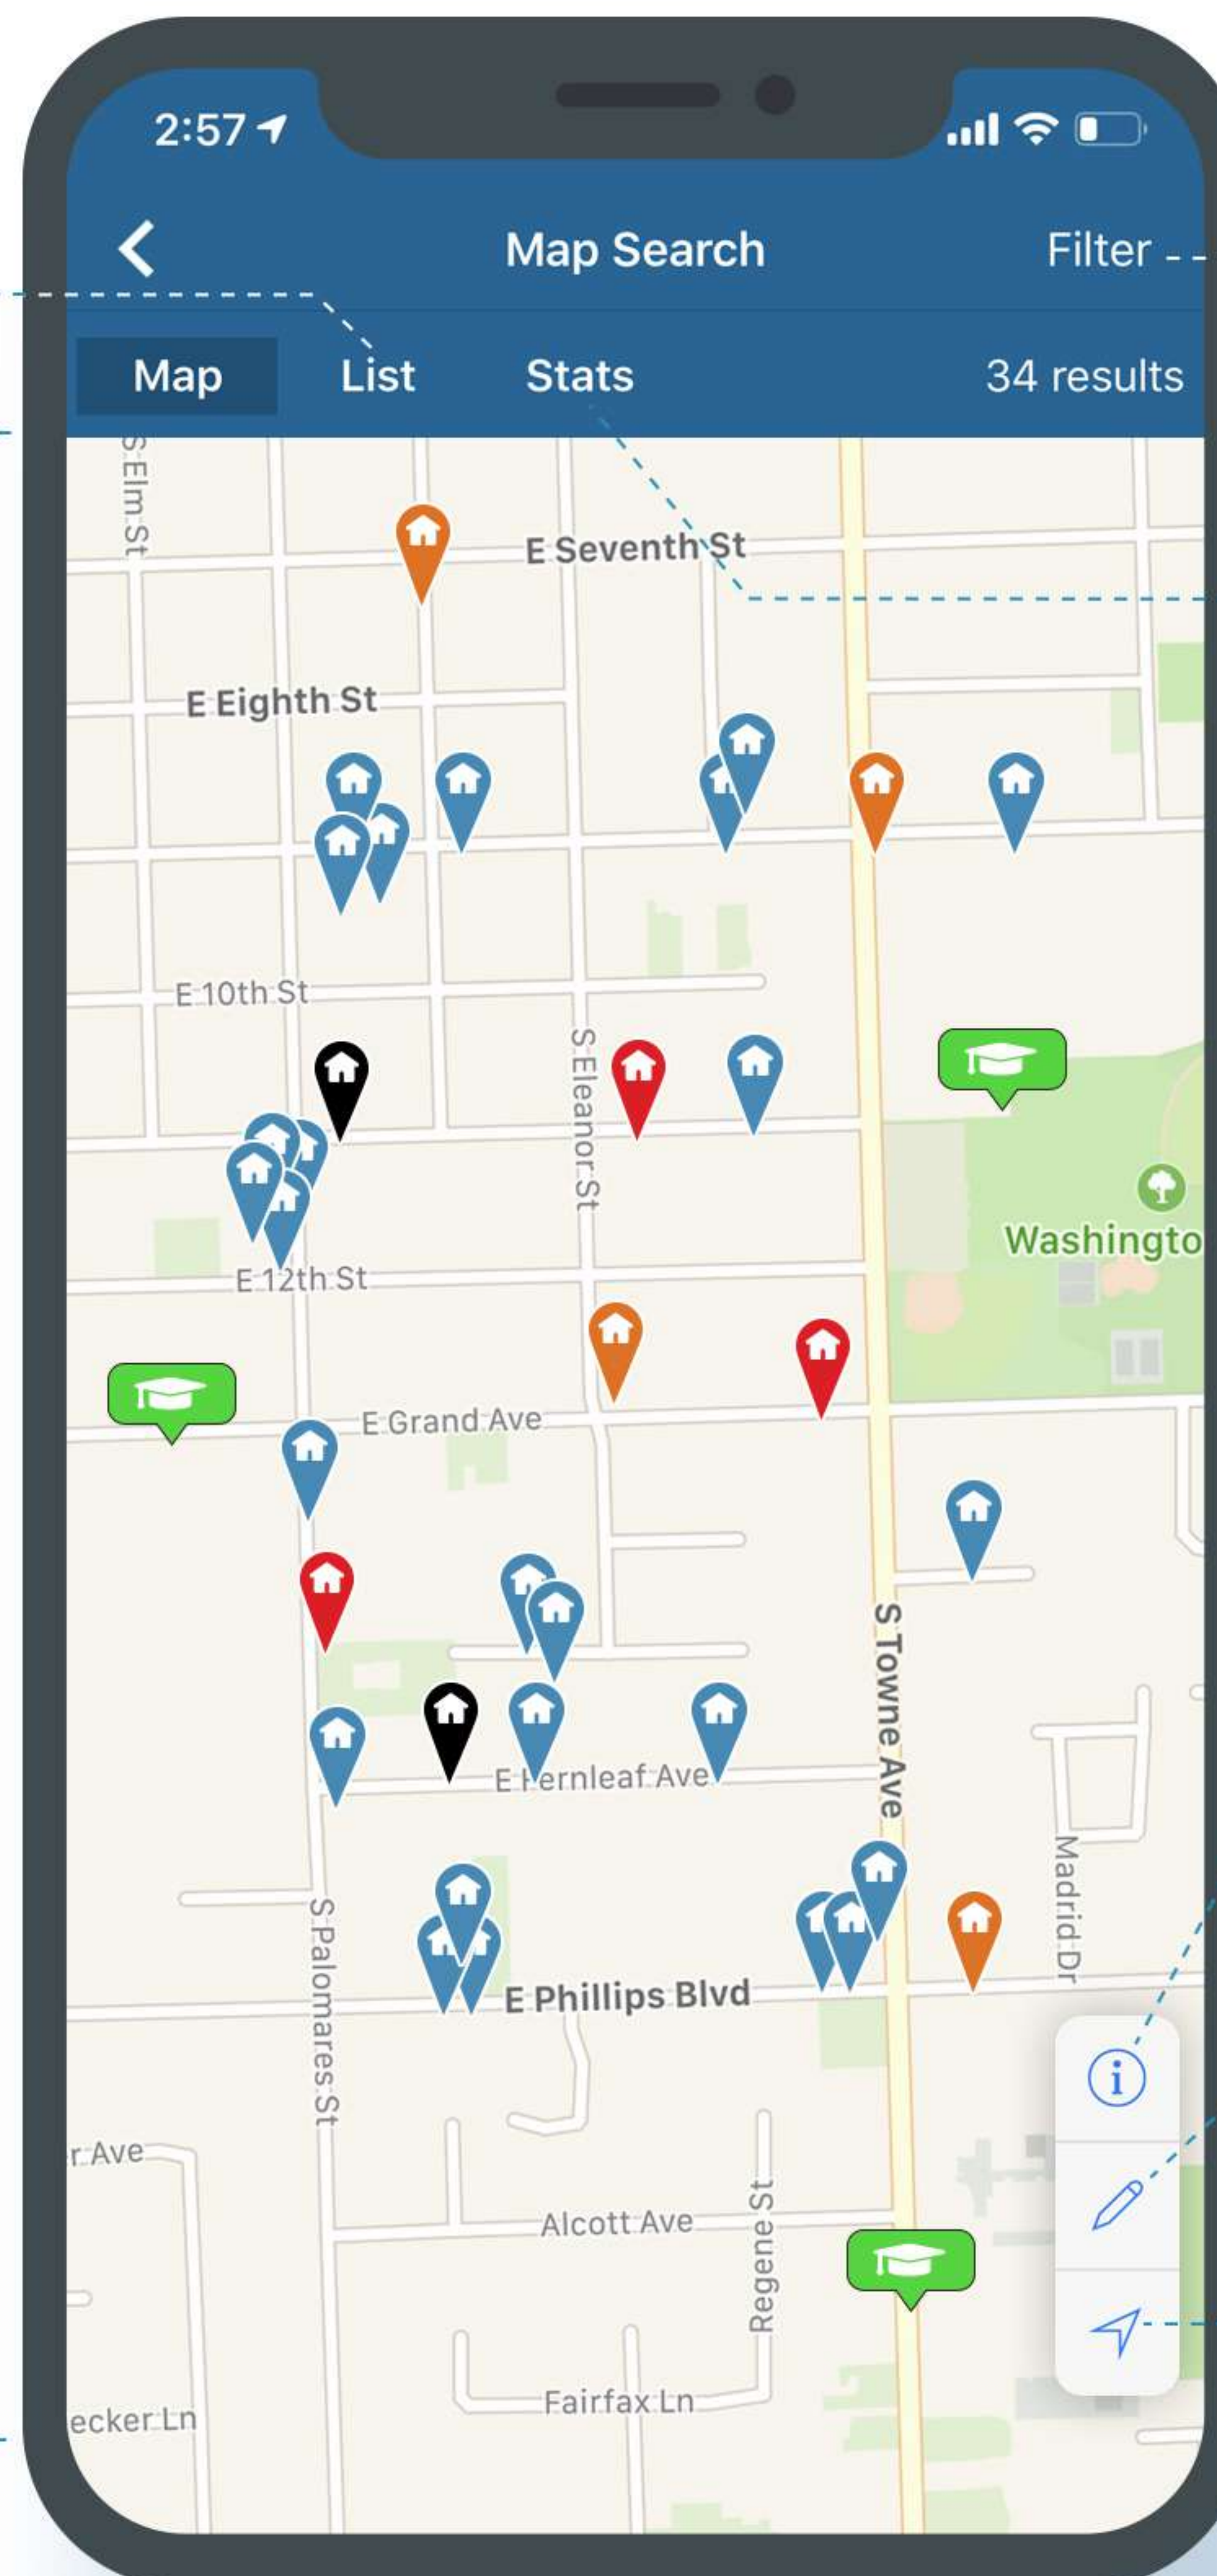

Powerful Searches With Lots of Filter Options

The Map Search automatically displays listings around your current location. You can easily swipe the map to target a different area, pinch-to-zoom to focus in, and filter your results by a wide range of criteria.

View Summary Details And Take Immediate Action

The List View gives you essential summary details and the ability to Add to Favorites and Send by Email. You can even email multiple listings at a time!

Activity Banners
(For extra details like Open House,
Price Drop, and DOM.)

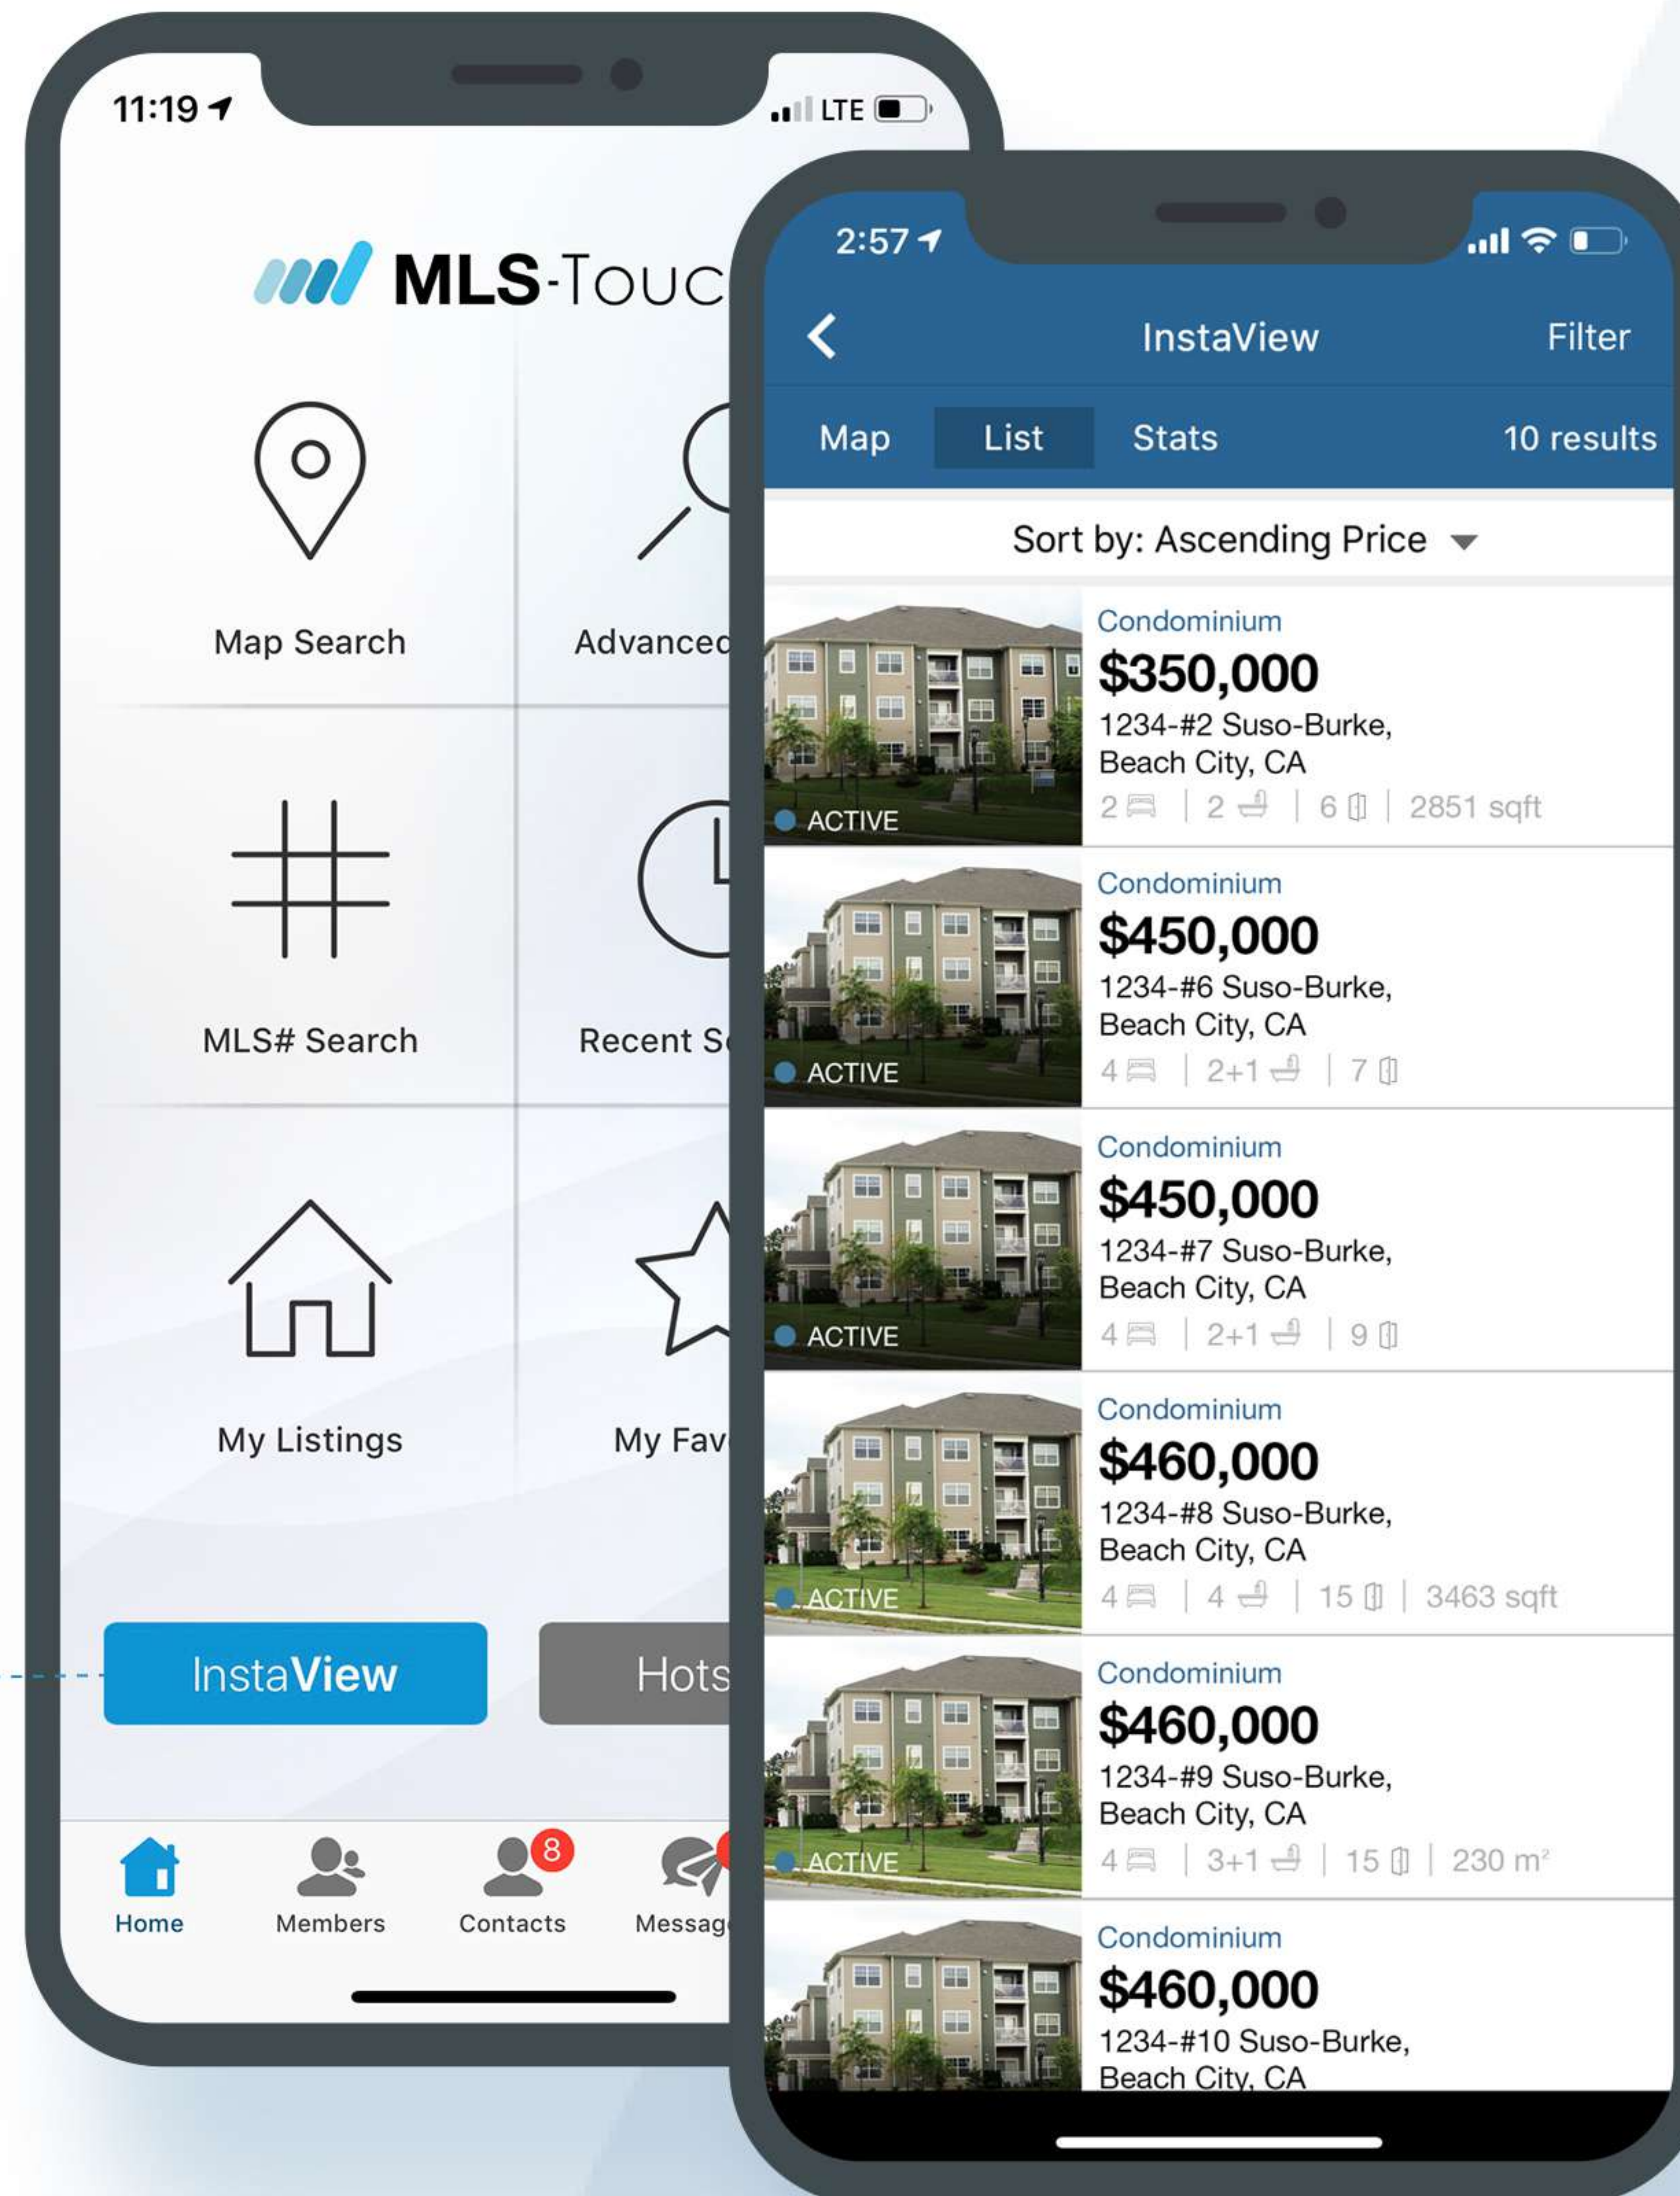

- Send by Email
(Send multiple listings at one time)
- Add to Favorites
(An easy way to keep track of listings)
- Sort results
(by Price, Address, Living Area,
Status Date, and Distance)

Look Up Nearby Listings With a Single Tap

The MLS-Touch InstaView feature is the perfect tool to use when your client asks "What about that listing over there?" Or when you're at a showing and don't have a printed flyer. With one tap you can look up the details and email a Listing Sheet to your client.

Point at the property and tap this button for instant property details

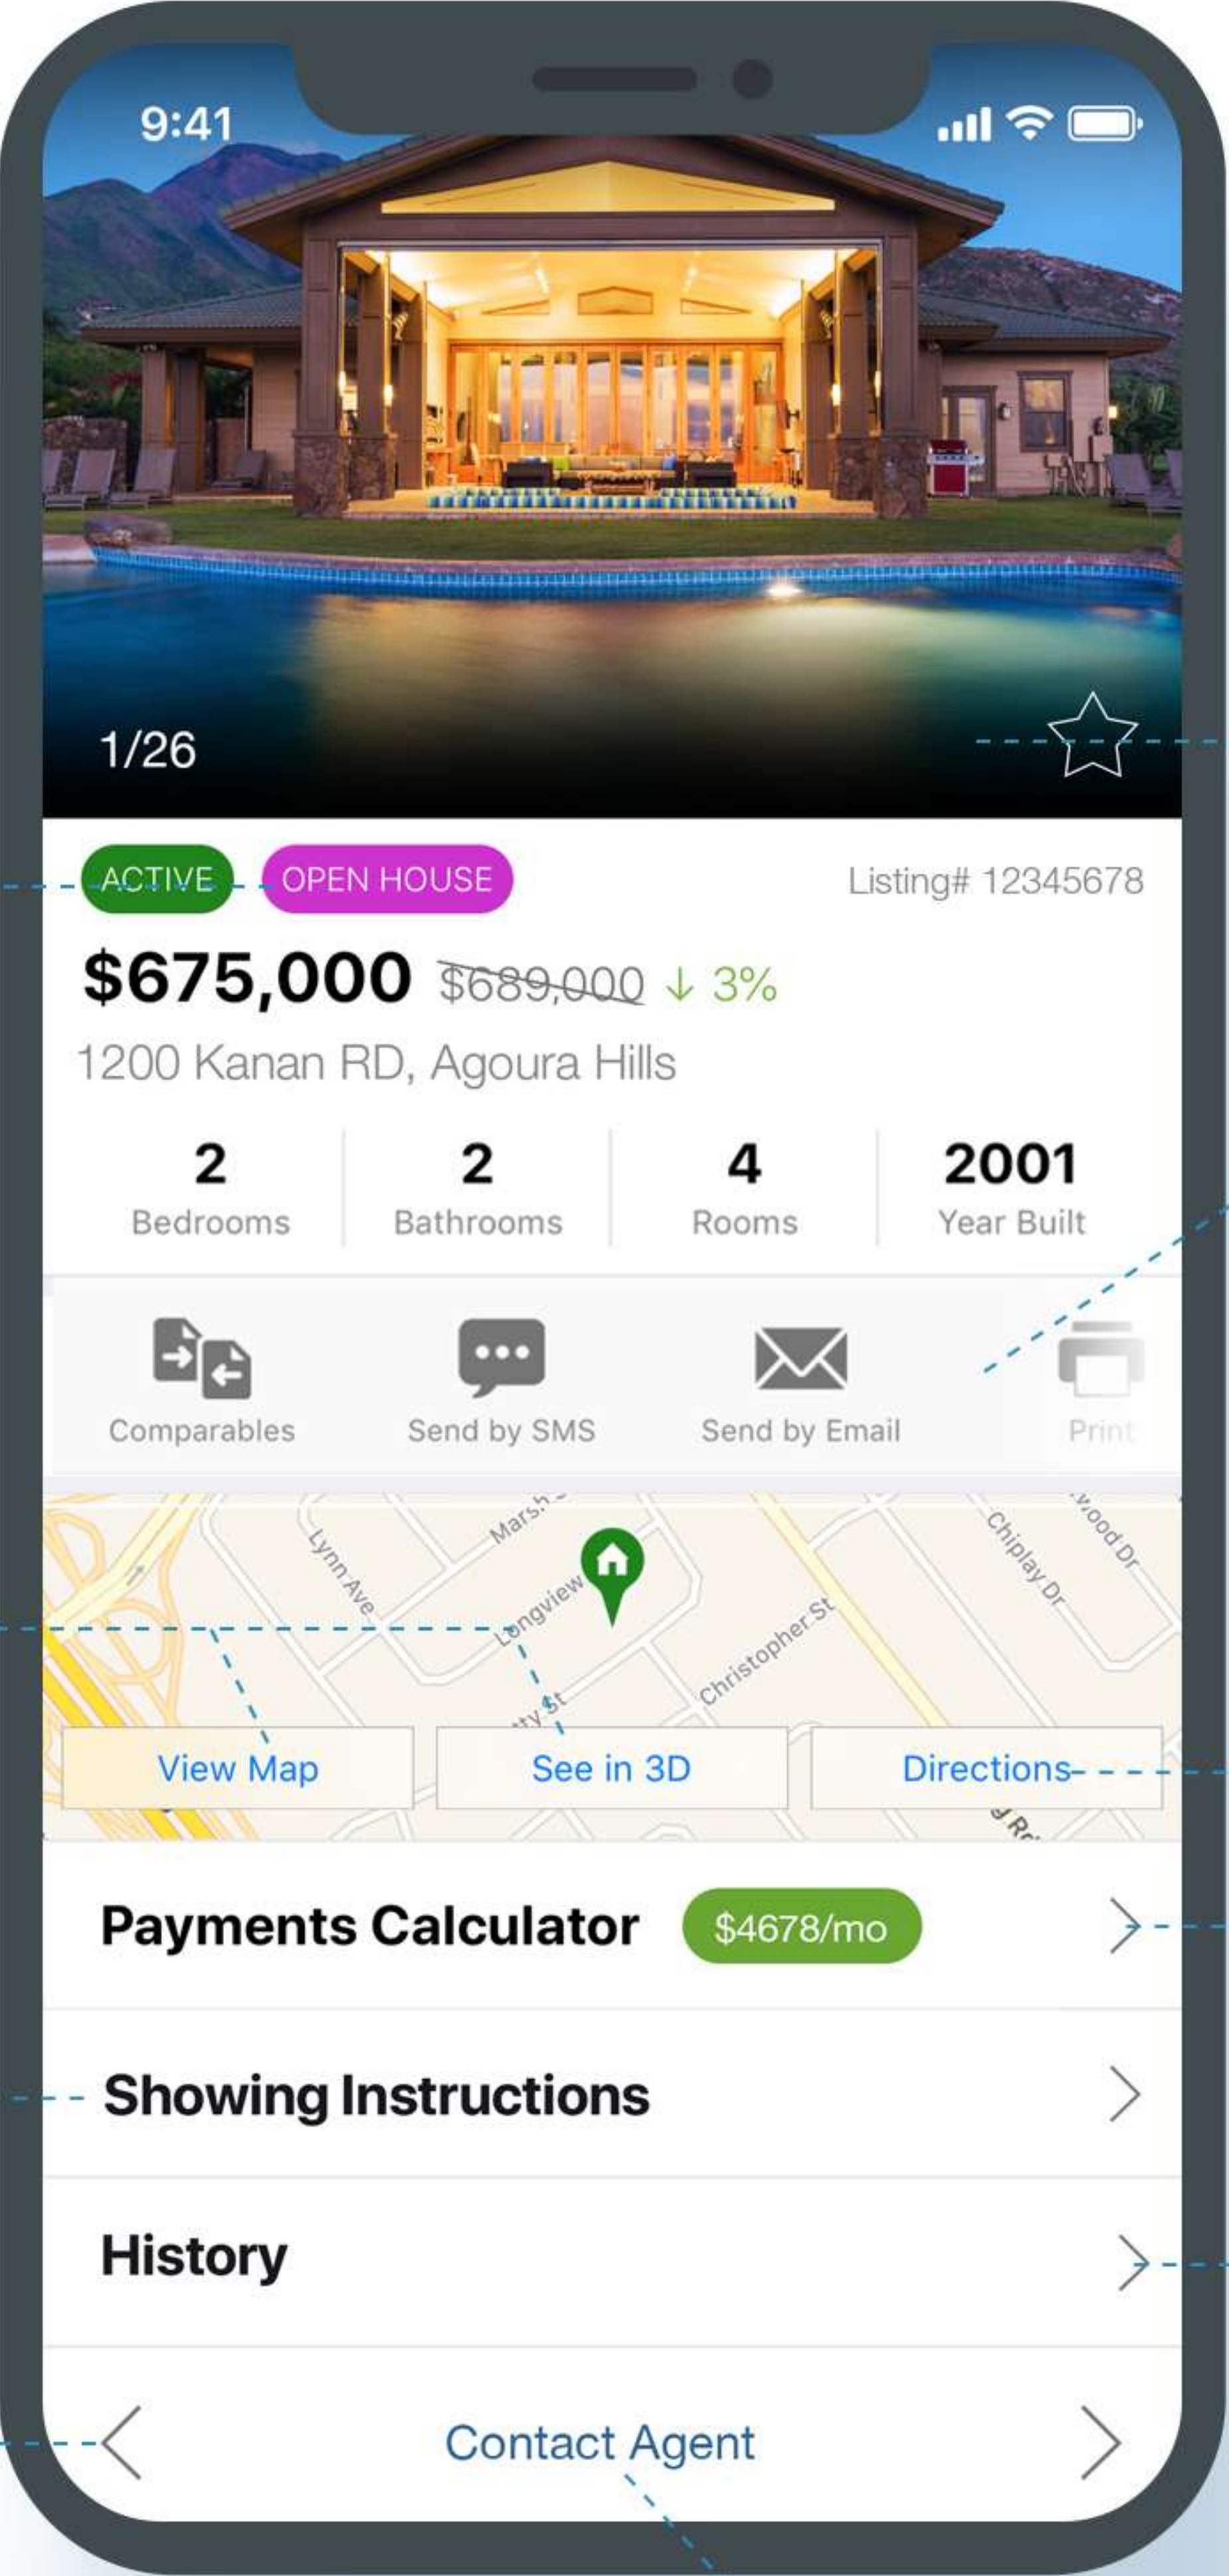

MLS-Touch will display all active listings within 400 ft.

All the Listing Details You Need

Includes tax info, listing history, property history, Matrix Documents (where available), and Agent-Only information such as private remarks, showing instructions, and commission data.

The image shows a smartphone screen displaying a real estate listing. The listing includes a large photo of a house at night, a price of \$675,000 (down 3% from \$689,000), and details like 2 bedrooms, 2 bathrooms, 4 rooms, and a 2001 year built. Below the listing are sections for 'Showing Instructions', 'History', and 'Payments Calculator'. A 'Contact Agent' button is at the bottom. Callouts point to various features: 'Status and Activity Banners' (ACTIVE, OPEN HOUSE), 'General Details' (price, address, bedrooms, bathrooms, rooms, year built), 'Location of the Property' (map, View Map, See in 3D, Directions), 'Showing Instructions', 'History', 'Scroll through multiple listings' (back/forward arrows), 'Photo Album' (swipe to see more pics, tap picture and rotate phone for landscape view), 'Toolbar' (Comparables, Send by SMS, Send by Email, Print), 'Driving Directions', 'Mortgage Calculator' (\$4678/mo), 'Listing & Property History', and 'Listing Agent Contact Details'.

You will be prompted to pick up to 10 areas when you get started.

Give Your Clients the Mobile Search App They Deserve

Create and share your own branded app with the Brand & Share feature. Your clients will get access to ALL the listings in your market and you'll get instant insight into the listings they flag as Favorites, Possibilities, and Discards. Listing inquiries and showing requests come directly to YOU. *

You can set it up under the More menu.

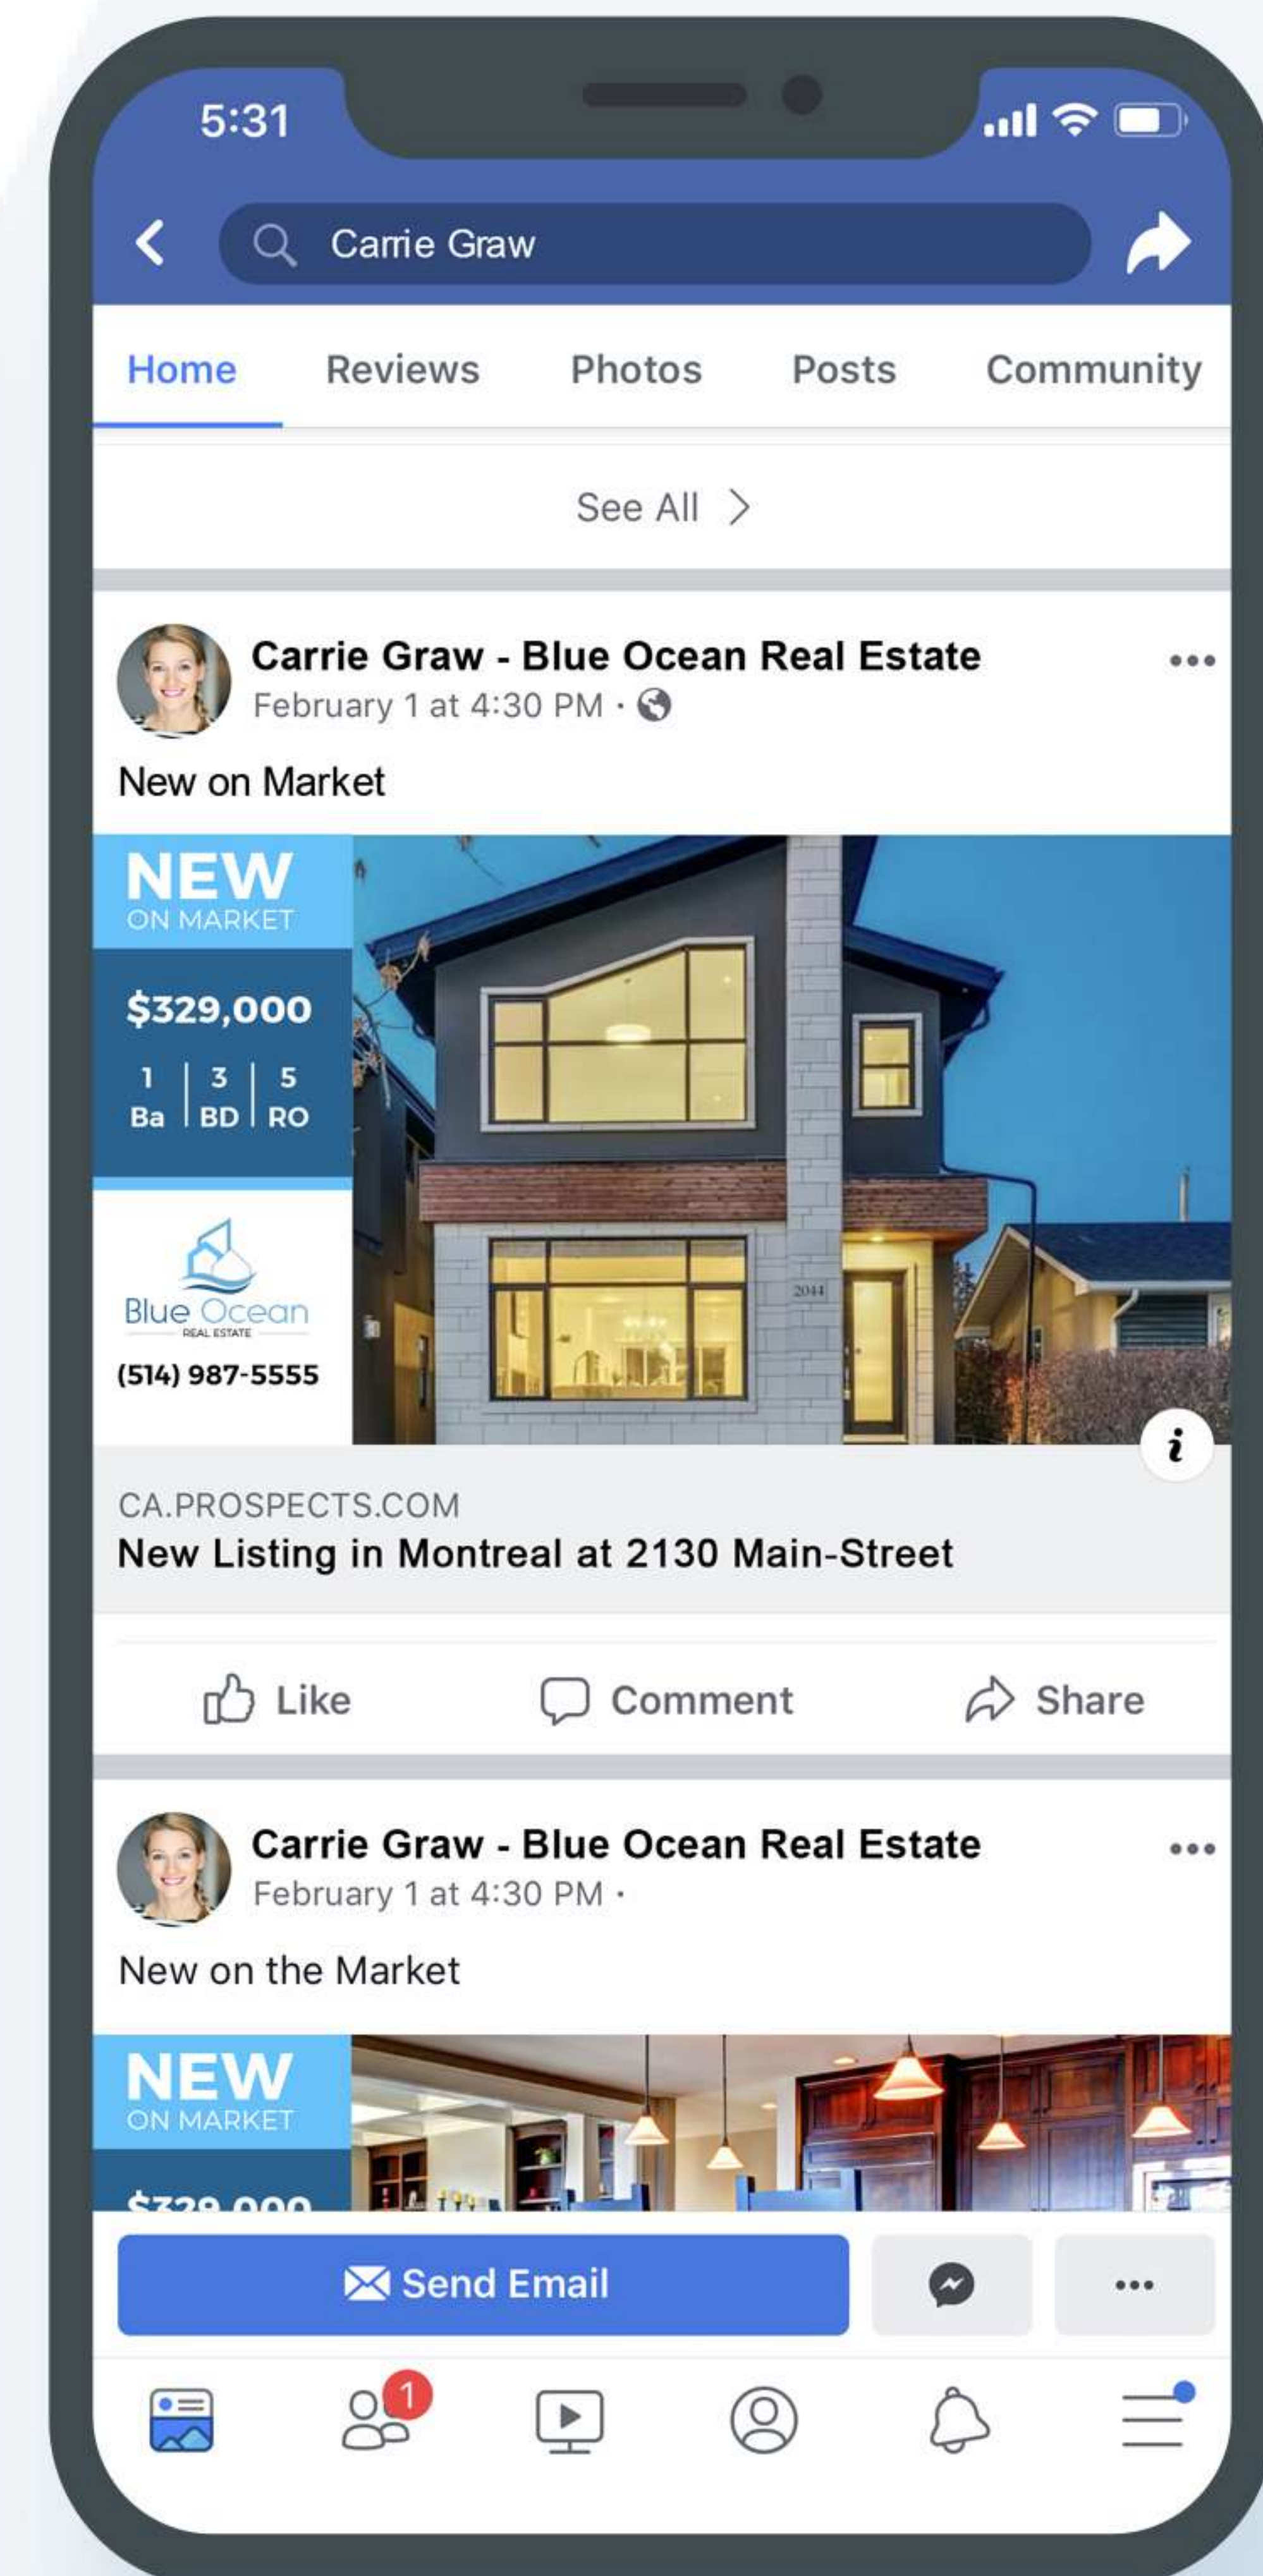

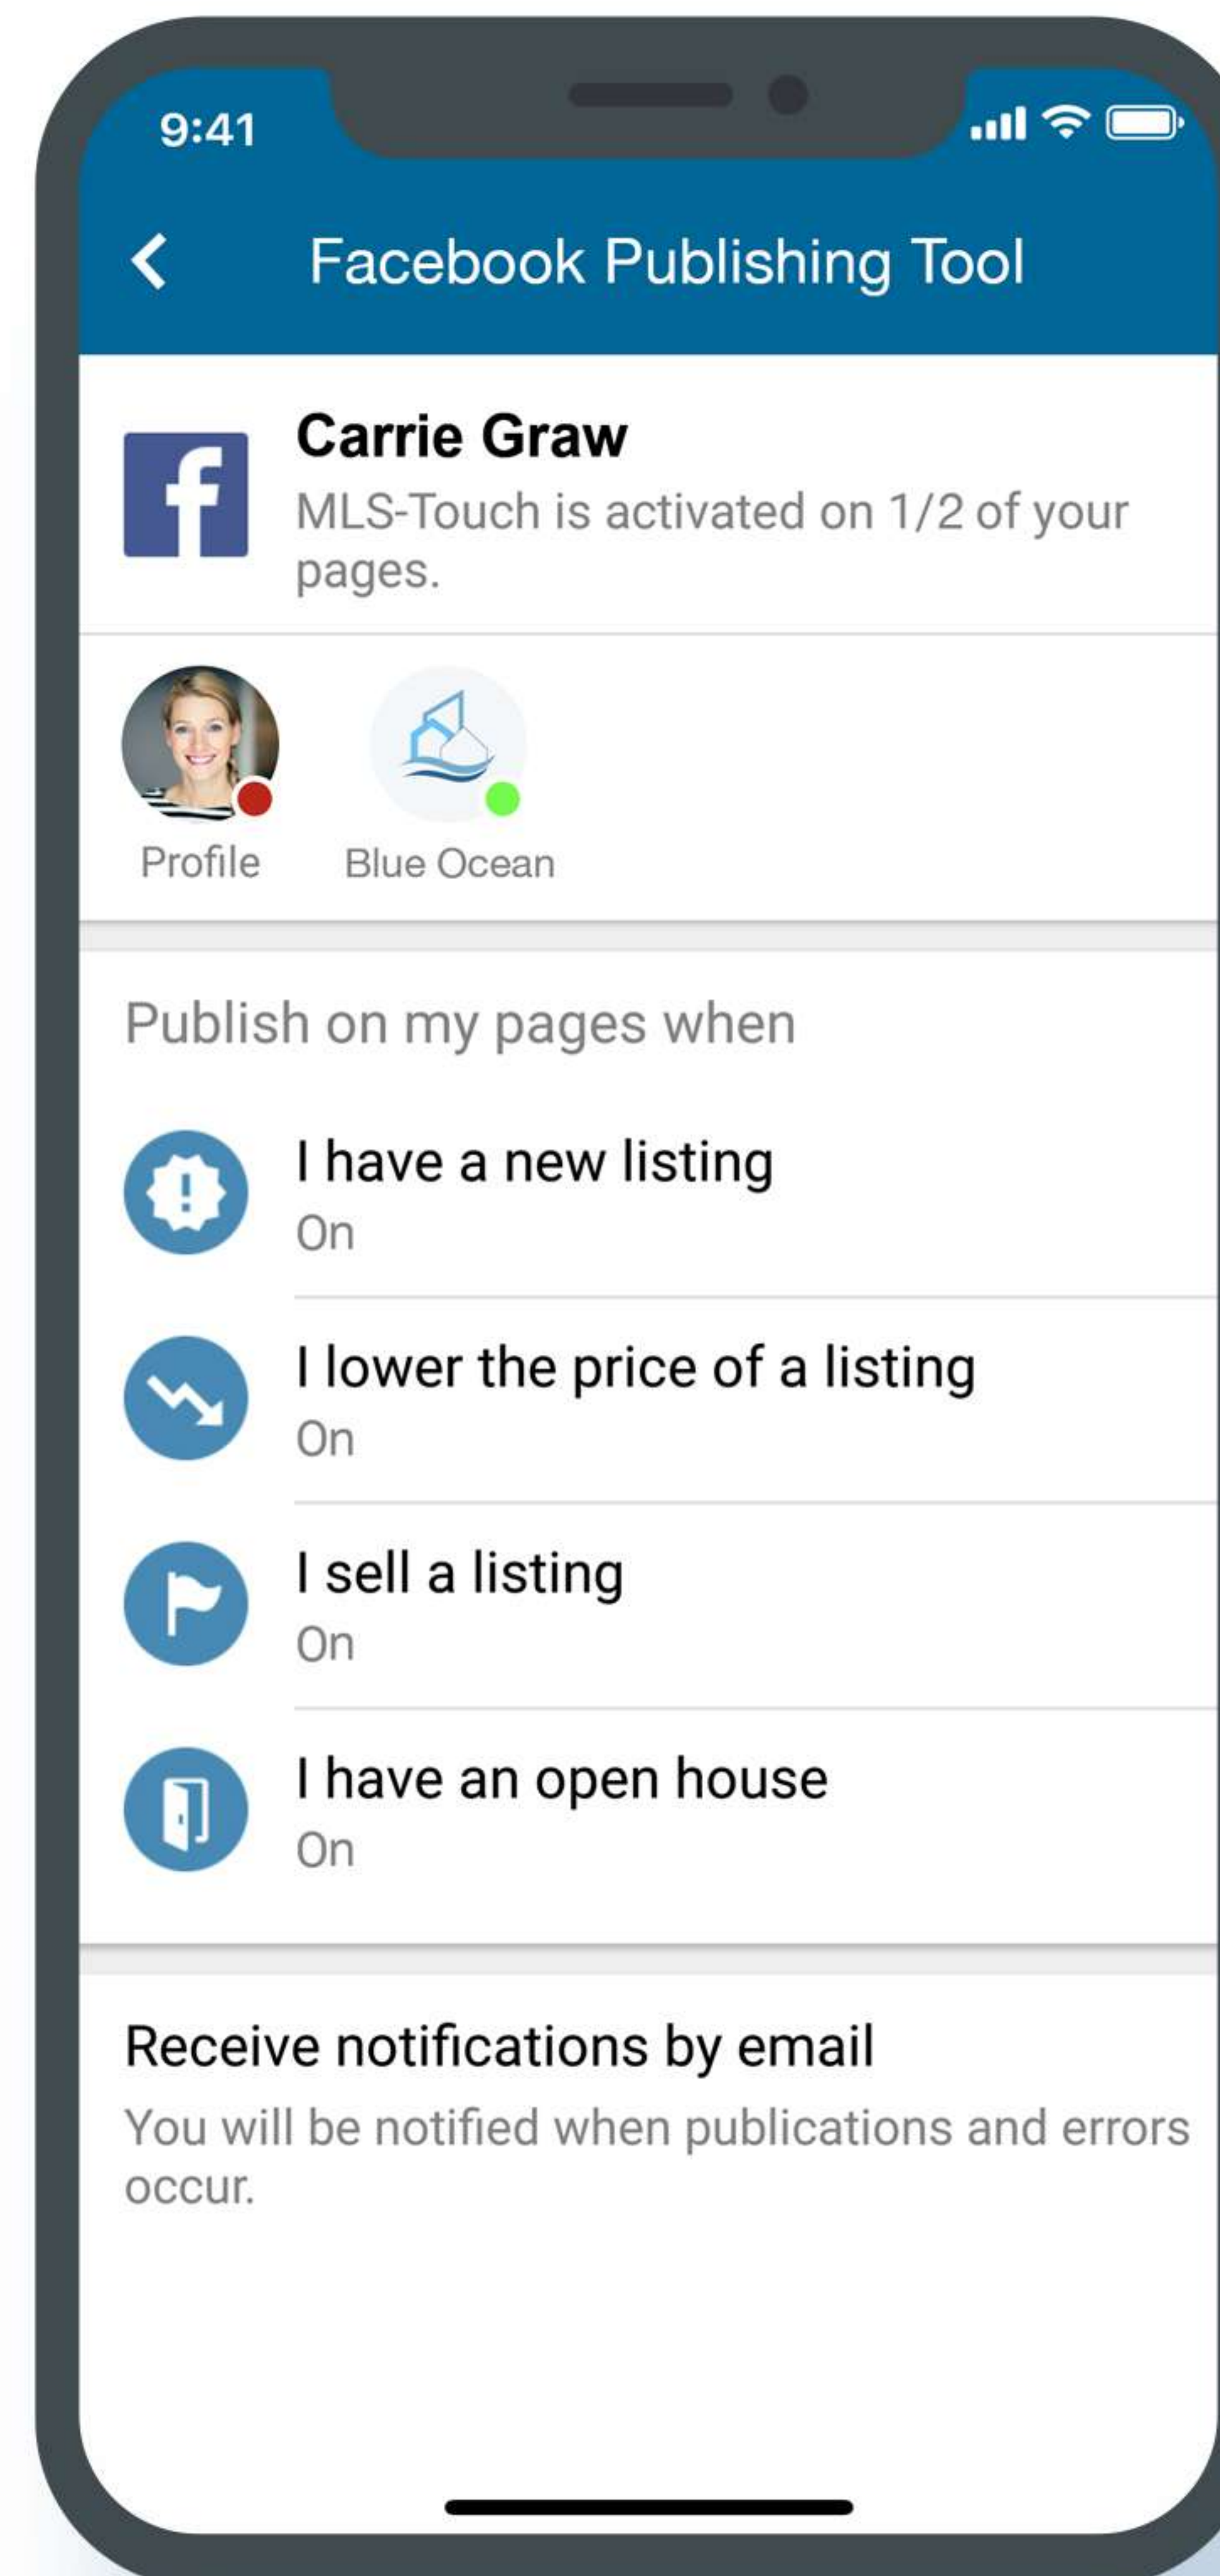

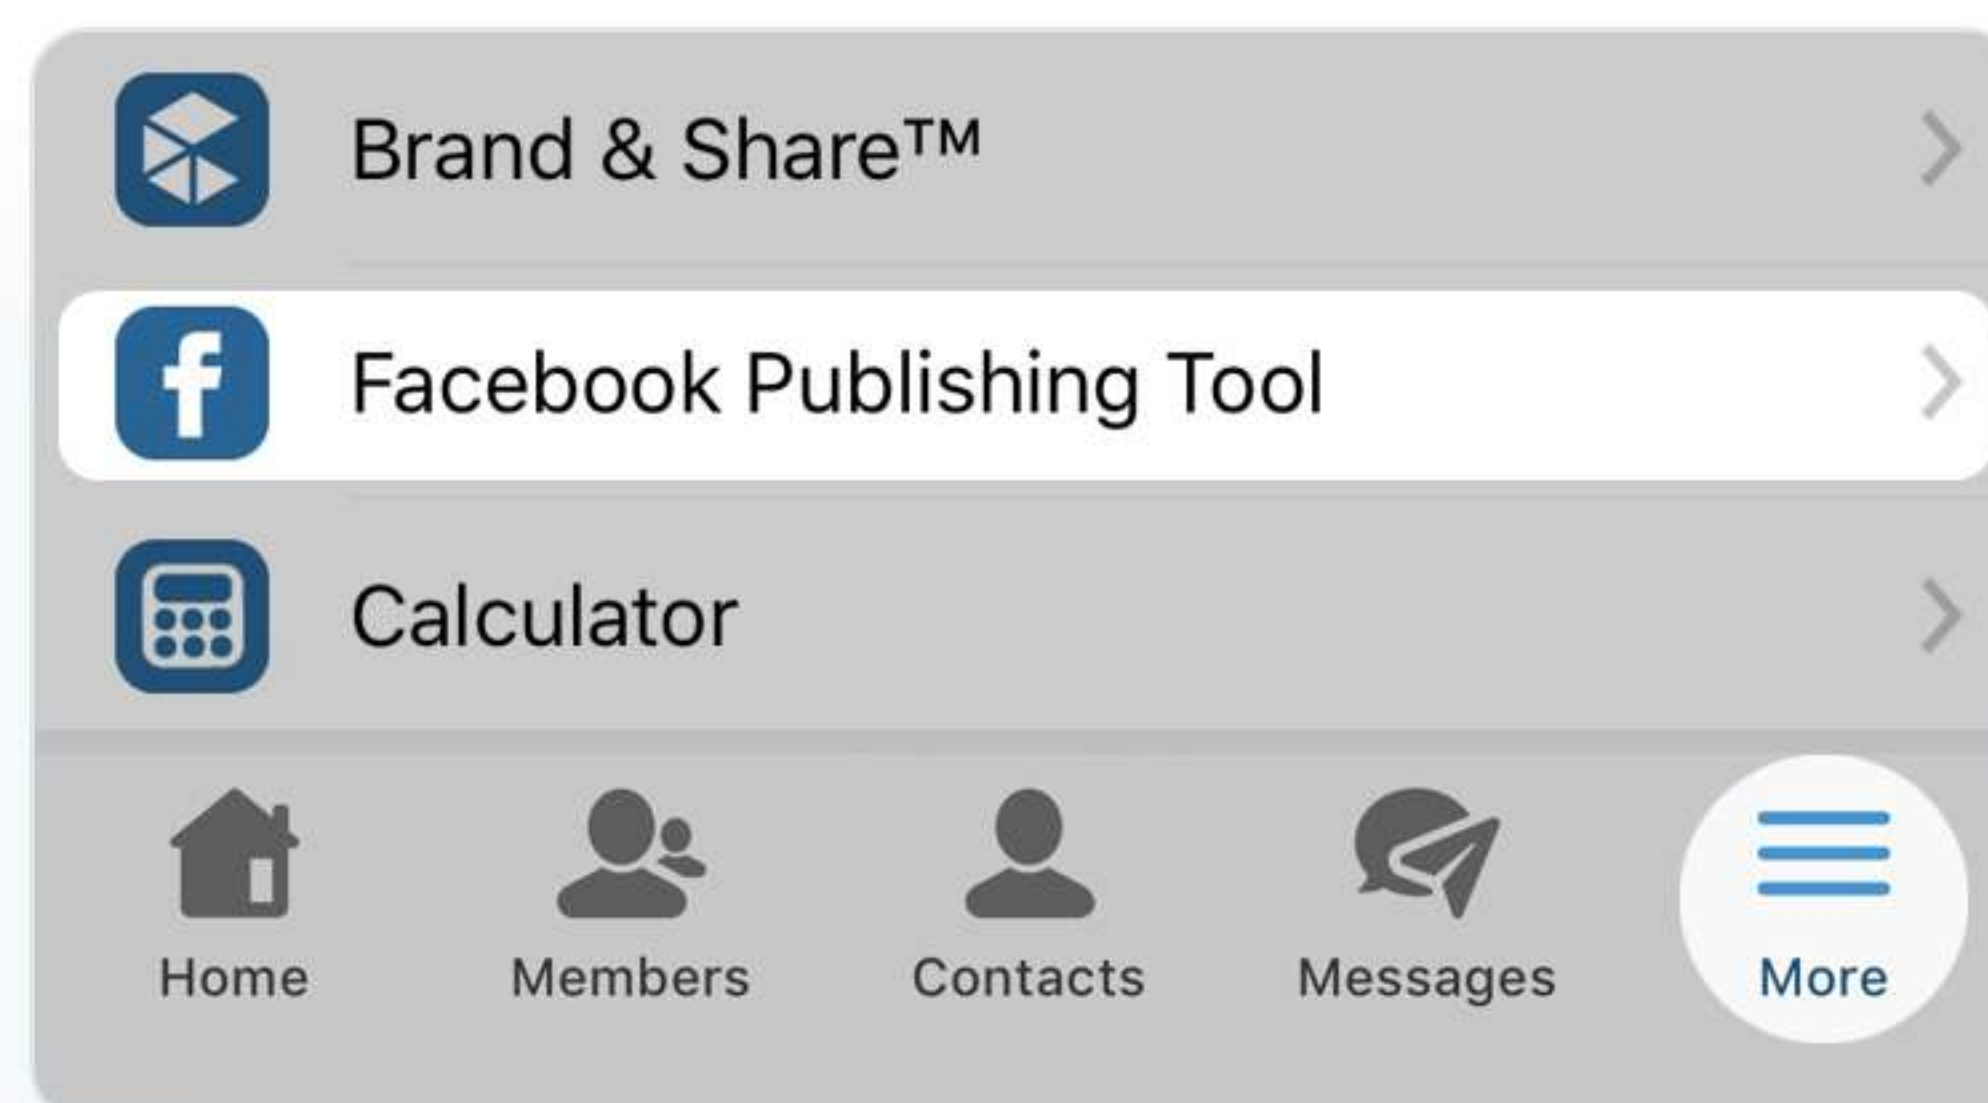

Any individual that installs your app will come in as a new lead in the Contact Manager.

Leverage Facebook to Grow Your Business

MLS-Touch will automatically post your new listings, price reductions, open houses and sold listings to your Facebook business pages. Followers can click on the post to see a branded feature sheet and request more information, or a showing.*

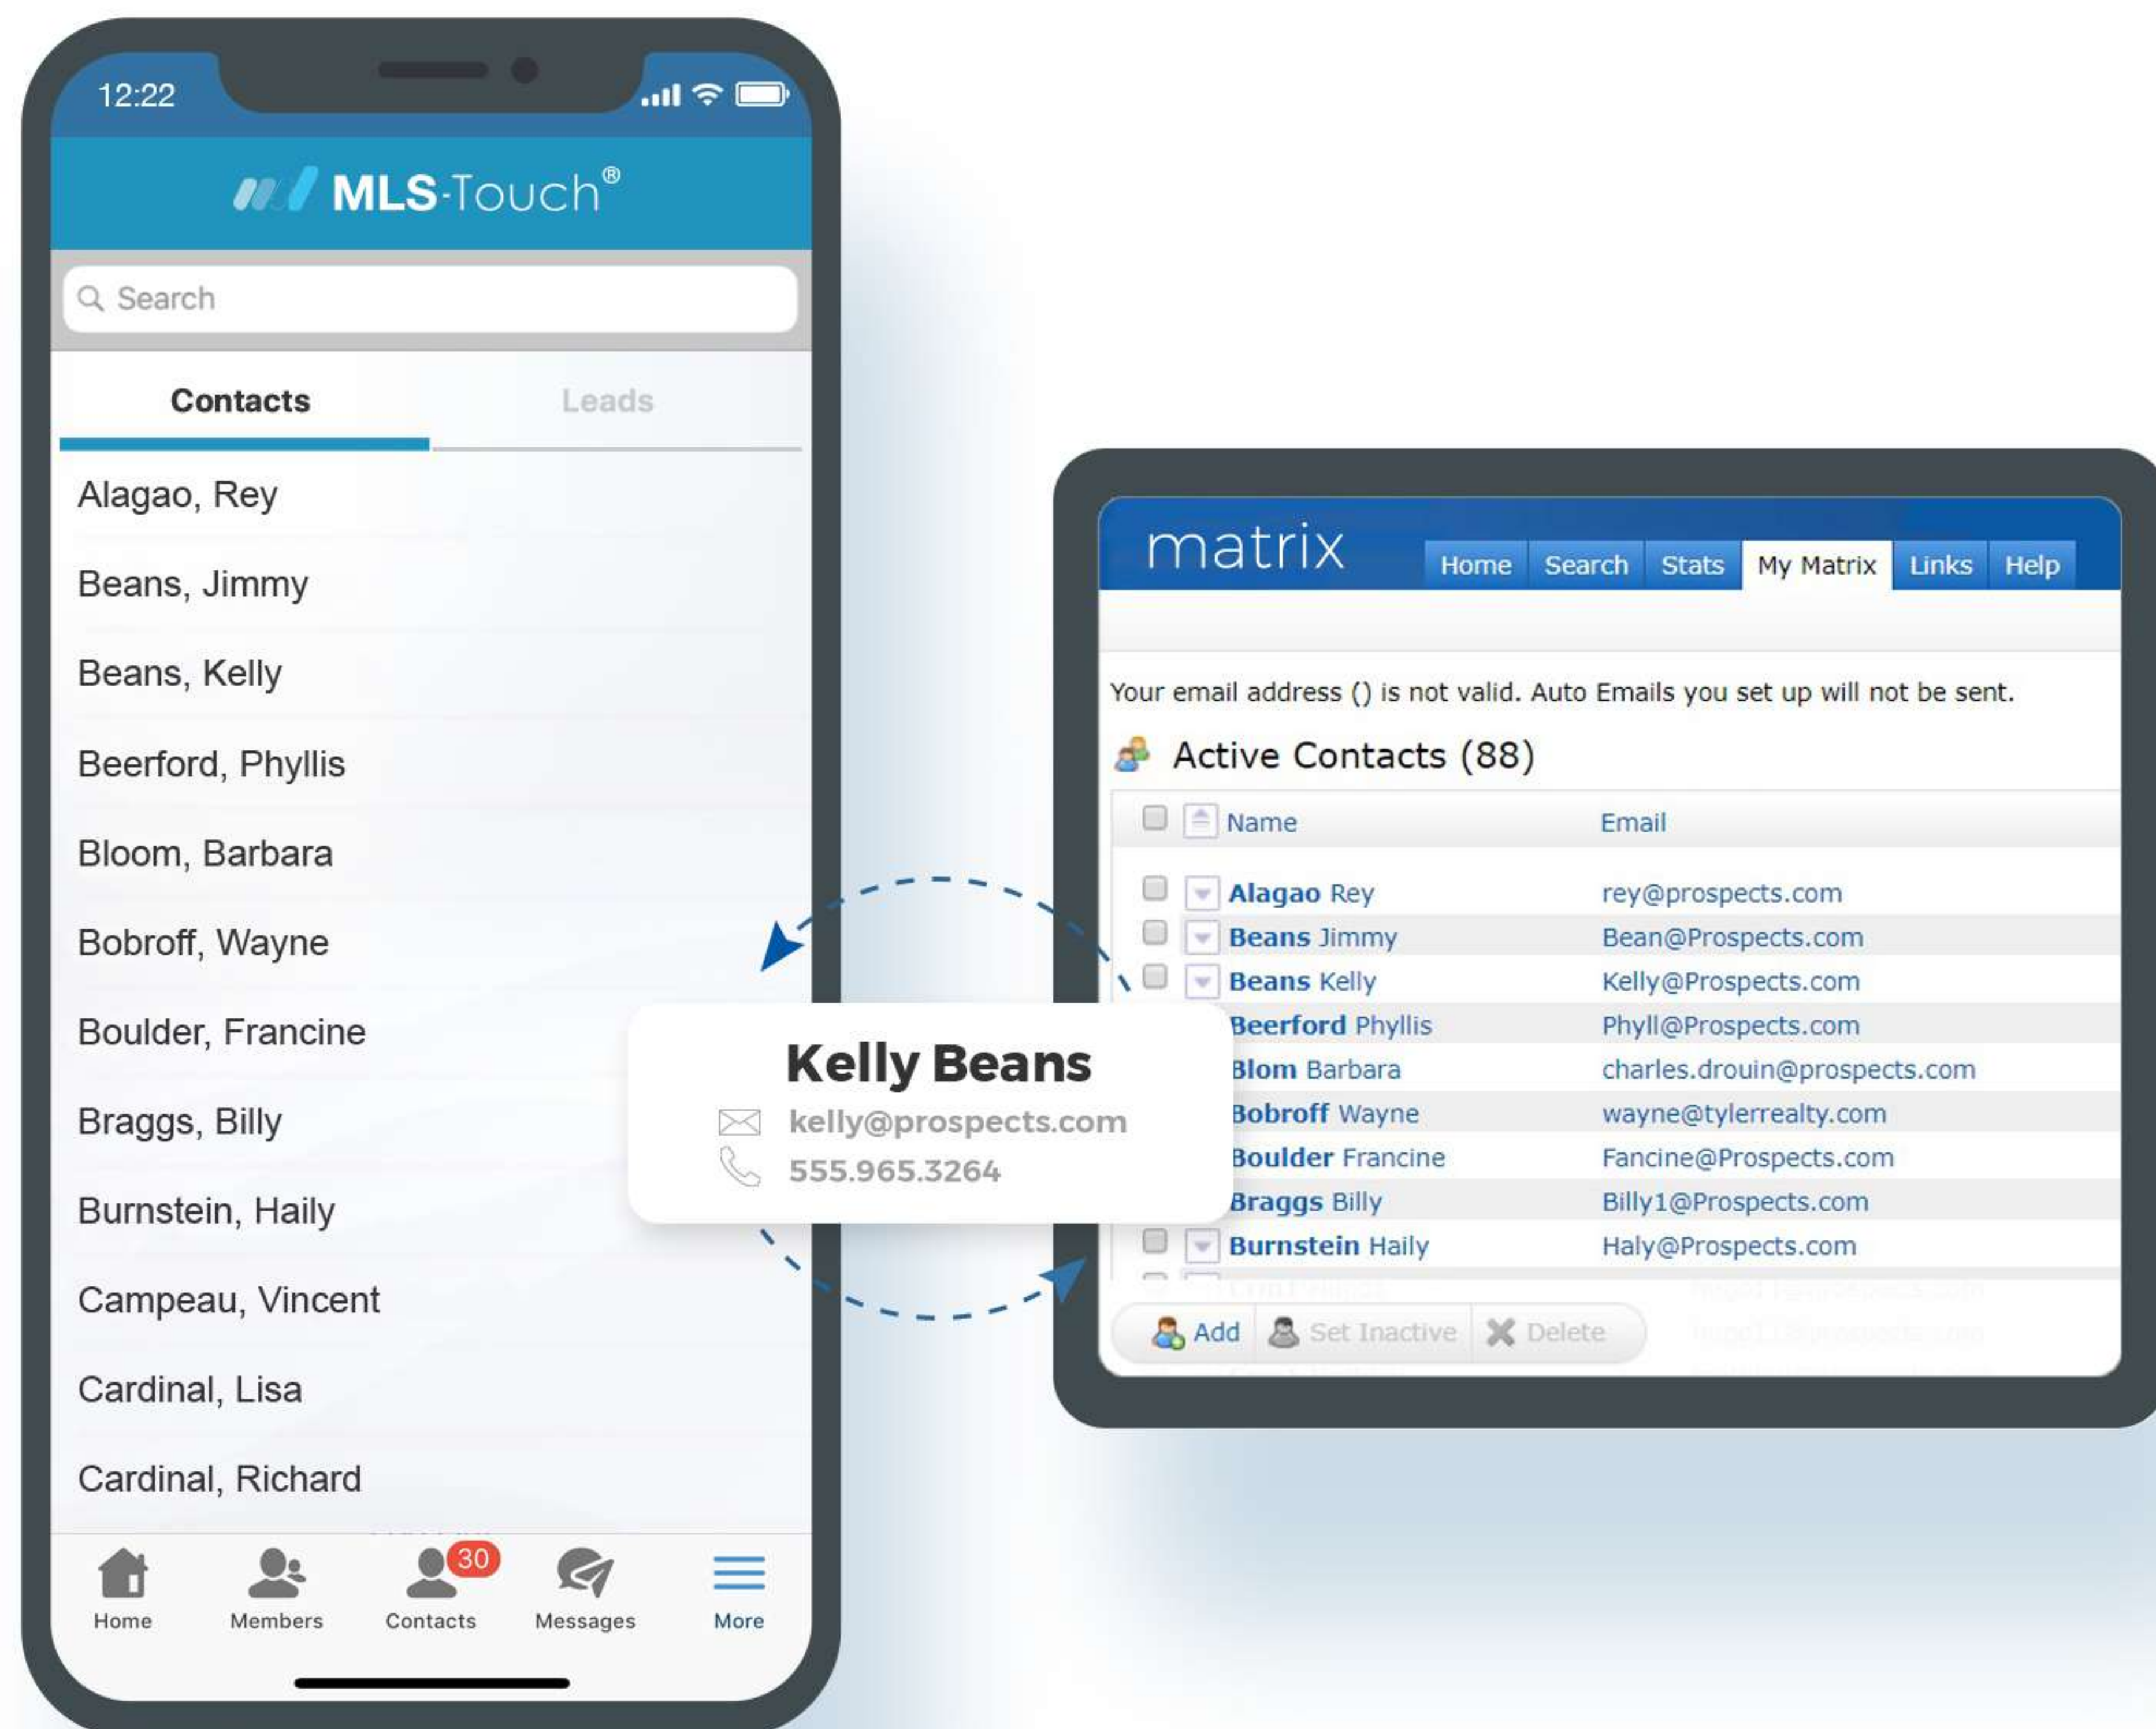

You can set it up under the More menu.

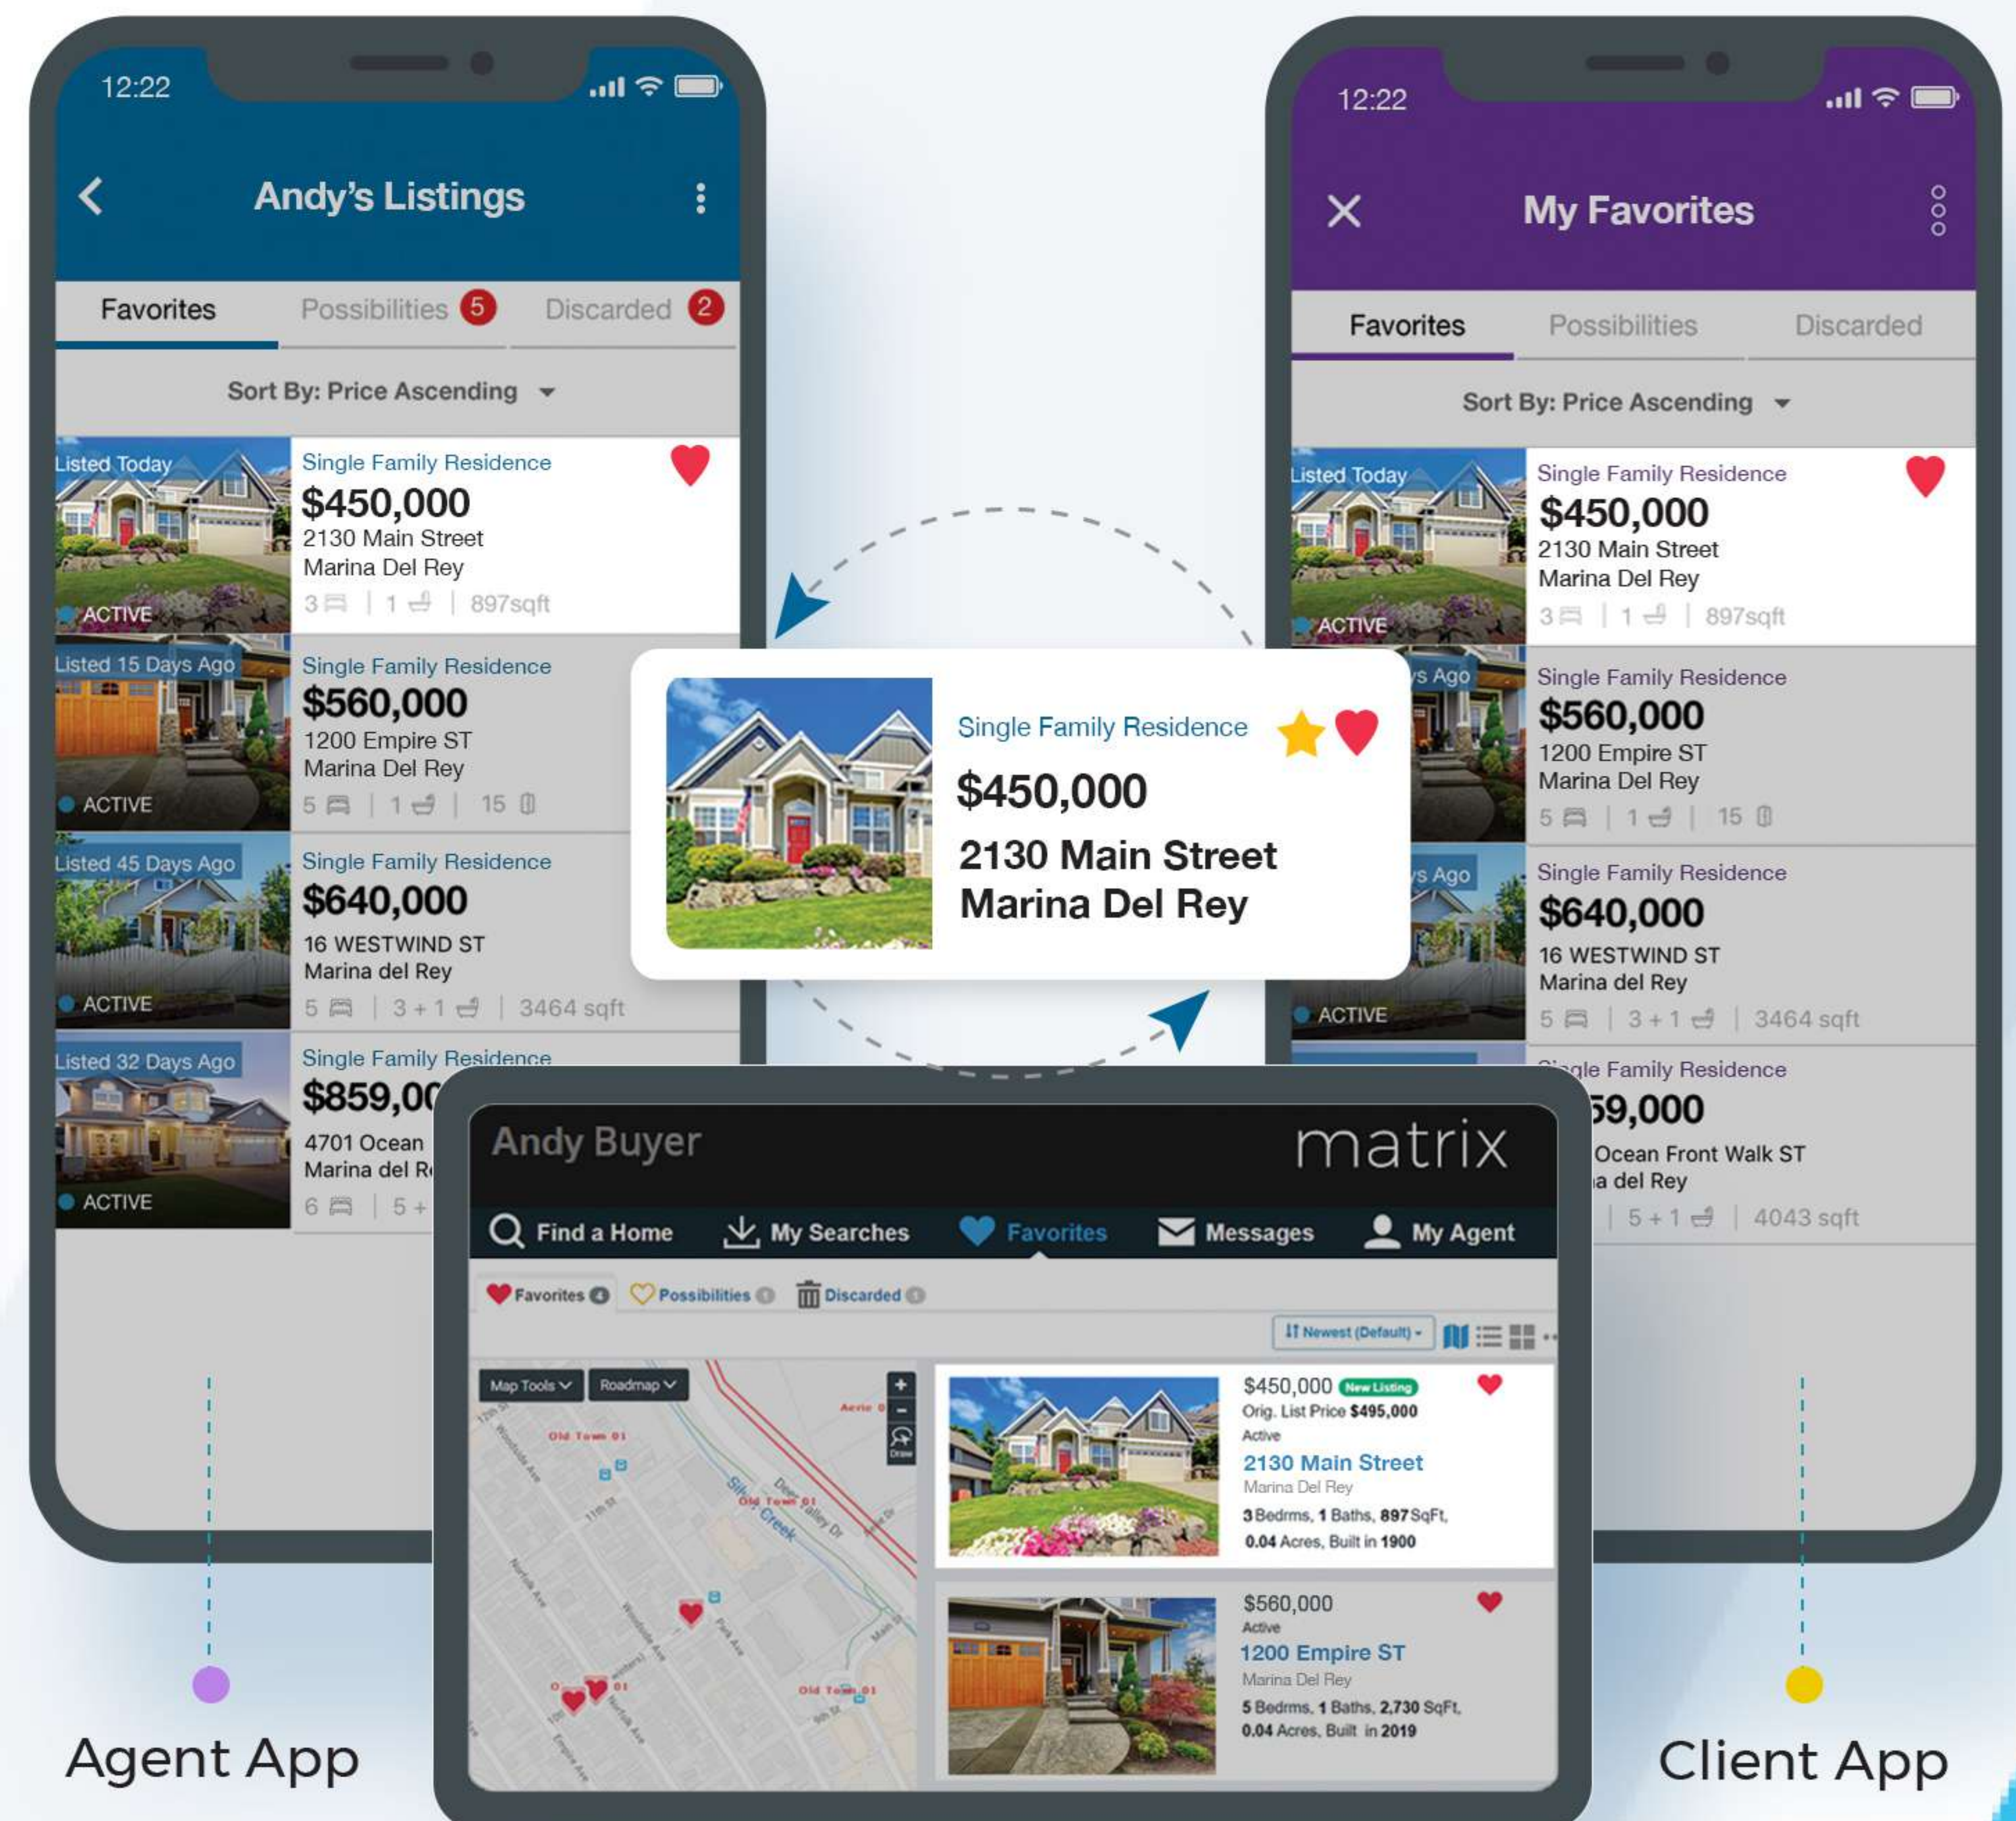

Matrix™ Integrations

MLS-Touch is much more than a search app. It's also a powerful contact manager! Thanks to our partnership with CoreLogic®, contact information, suggested listings, and Favorites and Possibilities flow seamlessly and automatically between MLS-Touch, your Branded App, Matrix and its Client Portal.*
