

Innovative lead development platform

Learn how this mobile-friendly product can boost your visibility

On **10/1**, CRMLS added a product to their core product line – **SavvyCard**, a lead development platform that uses MLS data to automatically create and maintain lead-generating "SavvyCards" for you and your listings – at no additional cost. Look for this new icon on your dashboard:

SavvyCard

SavvyCard creates PWAs (Progressive Web Applications) that are generated automatically using CRMLS data and require no additional downloads or installs.

With this product, you can create Agent SavvyCards, which put your agent image on your client's phone as an icon, function as a digital business card, and make it easy to share branded and mobile-friendly IDX searches. You can also make Property SavvyCards, which function as standalone websites for each listing that are easy to share on social media and feature built-in lead capture. With these resources at hand, you can expand the visibility of your listings, utilize your network to extend your reach, and close more deals.

SavvyCard is available to you at no additional cost, so there's no reason not to get started today. To learn how to use SavvyCard to increase your visibility and boost your business, [visit our product page](#).

Thank you for your continued support.
