

Heads up: Access to REcenterhub and the new dashboard coming soon

It's the first phase of our brand-new multifaceted platform

Mark your calendars! **On Tuesday, October 11th**, you can access your new dashboard within **REcenterhub by CRMLS**. This product, exclusively from CRMLS, gives you the ability to refine and customize your user experience – it all starts with a remodeled dashboard.

What is REcenterhub?

REcenterhub is a new product ecosystem designed by CRMLS, functioning as a distribution center powering critical services for AORs, brokers, and agents. It's a multifaceted, intelligent MLS platform that brings together all the important resources a real estate business needs – all in one place.

The REcenterhub dashboard is designed to replace your existing dashboard in Q1 of 2023 and adds new features and functionality such as dashboard customization, immediate access to market statistics, an aggregated notifications center, and more. It's just the first of many new features that are coming to REcenterhub in the future, and you can find out more about new developments [here](#).

There is still time to join one of our no-cost webinars, where we go over the new REcenterhub dashboard and much more. Space is limited, so sign up today:
