CRMLS Matrix users can now offer rentals to those affected by California wildfires

Learn more about the specifics of this new type below

In response to the wildfires in southern California, your CRMLS Matrix system has been updated with a new property type when adding listings: Disaster Relief Rentals.

The screenshot shows the top navigation bar of the CRMLS Matrix website with links: MY MATRIX | SEARCH | ADD/EDIT | FINANCE | ROSTER. Below this is a search bar with a question mark icon and the text 'Enter Shorthand or MLS#'. The main content area is titled 'Add New Listing' and contains a 'Select Form' dropdown menu. The menu lists several options: Residential, Residential Lease, Residential Income, Manufactured in Park, Land, Commercial Sale, Commercial Lease, Business Opportunity, and Disaster Relief Rental. The 'Disaster Relief Rental' option is highlighted with a red rectangular box. A blue callout bubble with a white border points to this option, containing the text 'Disaster Relief Rental'. At the bottom of the form is a blue button with a white icon and the text 'Cancel'.

If you have a client who can offer some degree of housing – rooms, parking for mobile homes, etc. – please use this category when making your listing. Fill out the rest of the listing as usual and put any further details about the property in the Public Remarks field.

Correction: A previous version of this email referred to the Public Remarks field as Open Remarks in error.

Please note that any listings made under this property type will NOT be syndicated or distributed. Disaster Relief Rentals will remain exclusively on the MLS and can only be found via MLS search.

We hope this new feature can help offer aid to those in need and please stay safe as the fire situation develops.
