MLS technology and services.

Turn any room into a vision with just a few clicks

See the AI magic in action in an upcoming webinar

There's no accounting for anyone's taste. While an industrial modern living room might be a selling point to some, a rustic kitchen might appeal to others. So instead of staging a room and hoping to find the most agreeable common denominator, tailor listings to your client's imagination with [REImagineHome AI](#), the latest no-cost virtual staging product that's as easy to use as it is customizable.

REImagineHome

All CRMLS users are now provided with an REImagineHome AI Essential Plan, good for 30 image-generation credits per month. You can find REImagineHome AI by logging in to your REcenterhub dashboard, going to Manage Apps, and selecting the

REImagineHome AI icon (shown below). To see how to get started, check out [this short guide](#) for info on setting up your account and generating your first images.

The average consumer doesn't have access to sophisticated AI image tools, much less ones designed especially for real estate. Show them how valuable it is to have a REALTOR® in the know by using REImagineHome AI to realize their own vision of home ownership. Whether it's furnishing a bedroom or landscaping, REImagineHome AI can help you bring a more unique listing to your clients.

To see learn how you can use REImagineHome AI to its fullest and see what it can do for exterior and under-renovation photos, sign up for one of our introductory webinars.

Wednesday, February 19 @ 11:00 AM PT
