Issues with updating listings have been resolved

We appreciate your patience as we worked to fix it

Over the last couple days, CRMLS received reports of delayed inbound/outbound listing updates, including data and photos, and user data processing. We're pleased to report that the issue has been resolved, listing data is now moving as it should, and the CRMLS technical team has completed the backlog of updates.

We understand that issues with your MLS system can cause severe disturbances to your day-to-day business and apologize for the interruption. Thank you so much for your patience as we worked as fast as we could to fix this unexpected error. CRMLS remains committed to bringing you the best MLS user experience possible.

Thank you,

California Regional MLS
