### The latest game-changing updates to REImagineHome AI

**Register for an upcoming webinar  
and learn how to bring unique value to your listings**

Preview:Recipient:Name,

[REImagineHome AI](#), the premiere AI-enabled virtual staging solution, has seen tremendous adoption by CRMLS users. Now, we're happy to announce that a new round of updates has not only made the platform more powerful, but also easier to use.

**The Design Companion** feature is a conversational online chat interface that can help guide users step by step to create the perfect room. While deliberating on designs, the Design Companion will offer breakdowns of what it's doing and how many image generation credits it will cost.

**CRMLS users still start with 30 complimentary image credits each month.**

Here are some examples of redesigns and the associated charge amount:

- Clean-to-Modern Cabin Refresh (3 credits)
- Luxury Rustic Polish (2 credits)
- Scandi-Light Transformation (3 credits)

No credits will be charged until you're ready to agree to make your changes.

In addition, **REImagineHome AI now offers speech support**. Agents can design rooms hands-free with just a few voice prompts in over 15 languages, enabling global collaboration and accessibility. With the new option to upload multiple photos at once, REImagineHome AI is now a smarter, faster, and more complete way to stage your photos.

To help you understand and use these new features, we're hosting a webinar with the REImagineHome AI team:

### REImagineHome AI: New Features for Even Greater Listings

Wednesday, October 15 @ 2:00 PM PT
