CRMLS introduces new security measures on January 7

Read below to know what to expect and what to do

Preview:Recipient:Name,

Cybersecurity threats are an ever-evolving problem in any digital space that can upend entire industries, especially data-heavy ones like real estate.

CRMLS is rolling out multifactor authentication (MFA) beginning Wednesday, January 7, 2026, to keep up with the latest security demands. MFA is one of the simplest and most reliable ways to ensure your data is protected.

What happens on January 7:

- The gradual MFA rollout for CRMLS users begins
- When you log in to your MLS at some point after 1/7, you'll be prompted to set up MFA
- Following the prompt, you will receive a one-time code via email or text
- Use your regular login credentials **plus** the additional code to access your account

What you need to do now:

No action is required before January 7, however we strongly encourage that you log in to your MLS account before the launch date to confirm that your email address and cell phone number are up to date and accurate to receive your one-time code.

If you don't receive a one-time code when attempting to log in:

Please contact [CRMLS Customer Care](#) at (800) 925-1525 as they can verify

that the email address and mobile number in your account are correct.

We thank you for your continued support.
